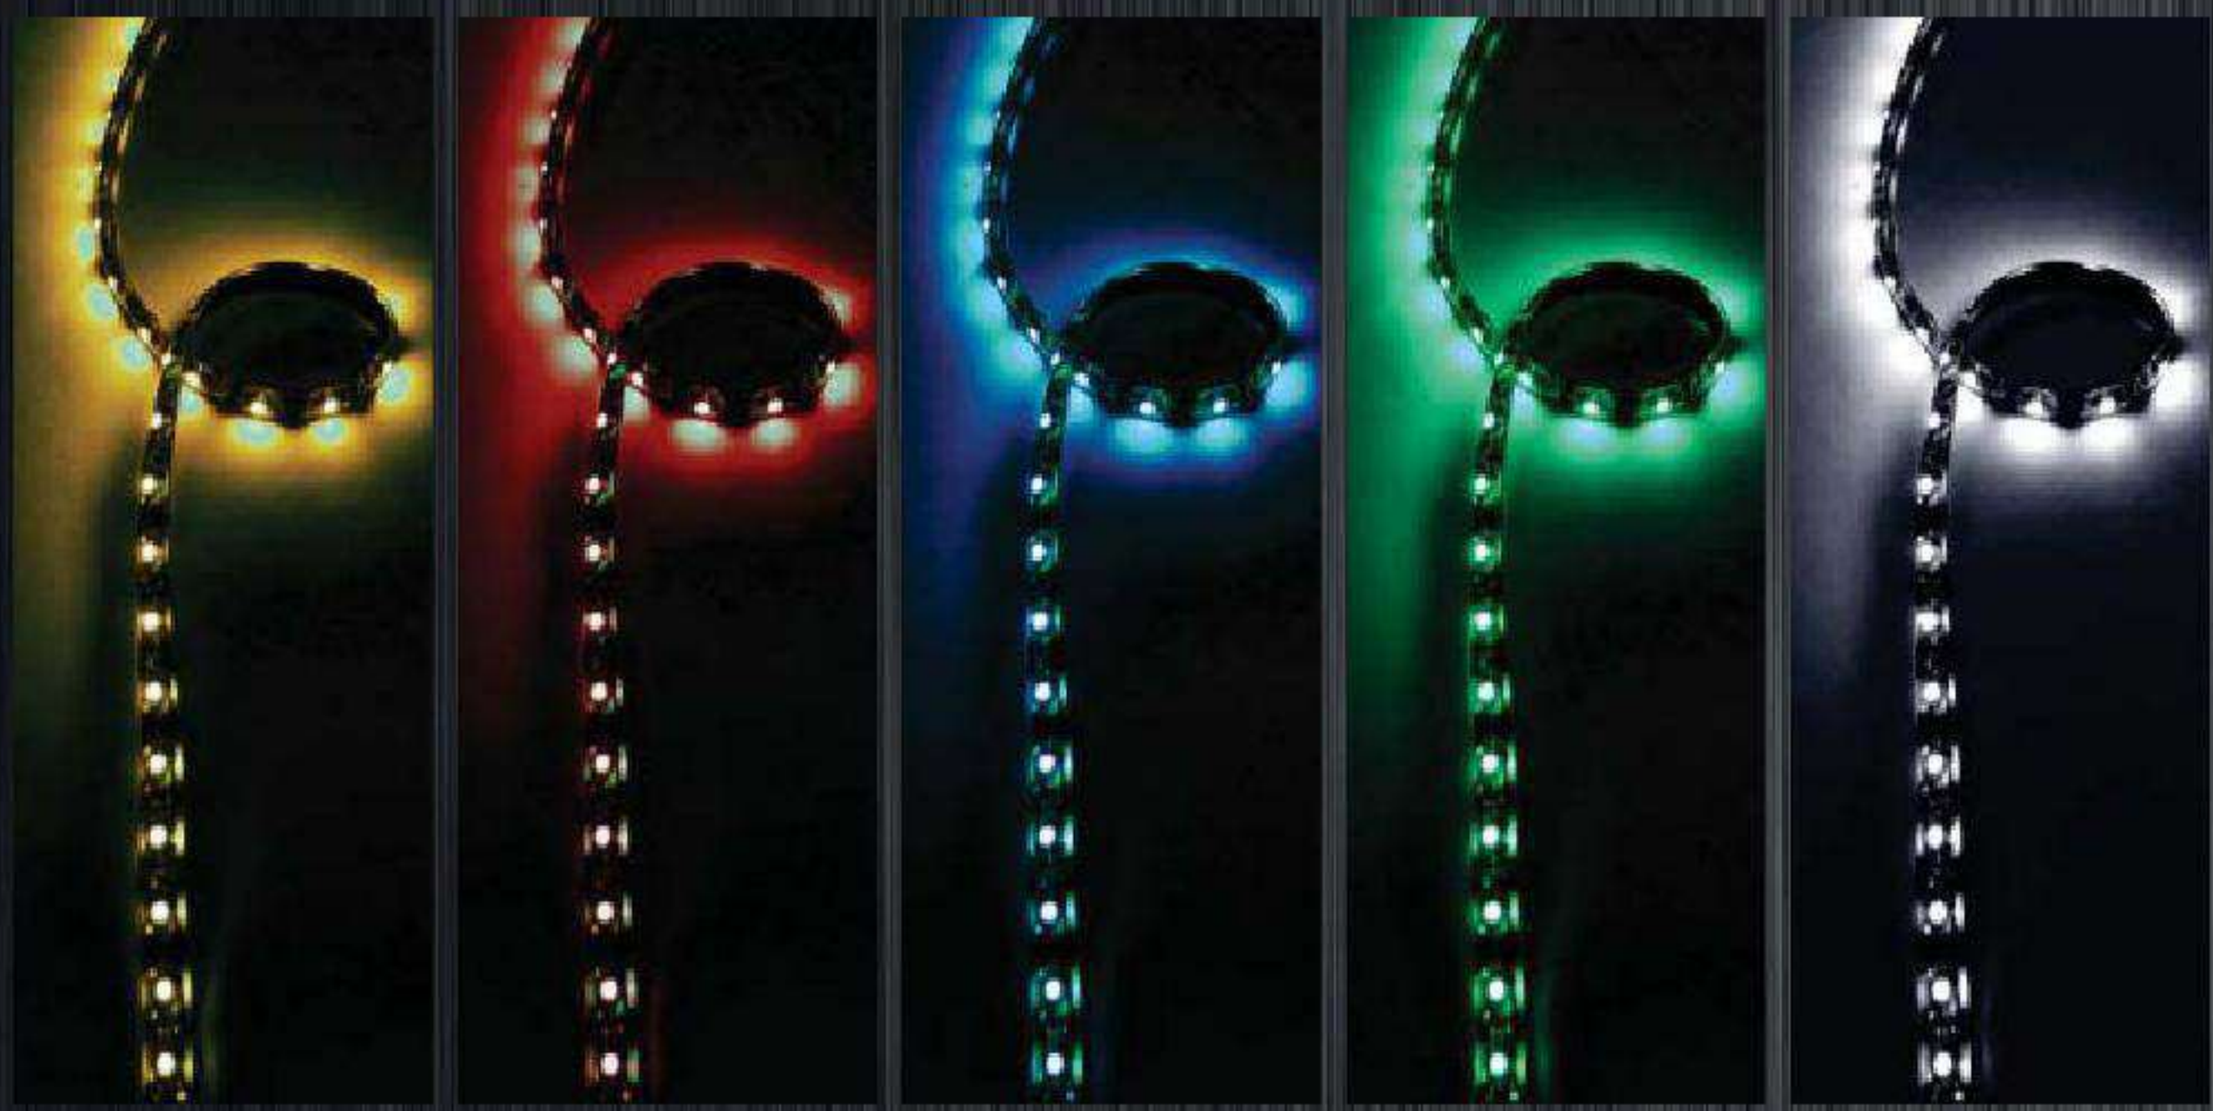
FLEXIBLE LED ROLLS

Waterproof flexible LED rolls are a brilliantly functional, wide angle, super-bright LED product.
Highly flexible, ultra-thin, durable, sealed and coated, rugged flexible LED rolls withstand extended wet or exposed outdoor conditions.

Waterproof LEDs have a 140° viewing angle for a wider light dispersion; Cut-able every 3 LEDs; Bright, energy saving LEDs stay cool;
Silicone coated surface mounted waterproof LEDs on a flexible printed circuit board; installs with a 1" clear tube clip that the strip is fed through.
Clip has 3M double sided tape. Each LED Roll includes 5 installation kits.



TB-F2A	16 ft. Flexible LED Roll (18 Diodes Per Foot) - Amber
TB-F2R	16 ft. Flexible LED Roll (18 Diodes Per Foot) - Red
TB-F2B	16 ft. Flexible LED Roll (18 Diodes Per Foot) - Blue
TB-F2G	16 ft. Flexible LED Roll (18 Diodes Per Foot) - Green
TB-F2W	16 ft. Flexible LED Roll (18 Diodes Per Foot) - White

For Installation:
Cut Desired length (Cut-able every 3 diodes).
Peel back silicone from tip of circuit board; install end cap.
Solder duplex wire to end cap.
Mount LED strip with 1" clip at desired lengths.

EXHAUSTS

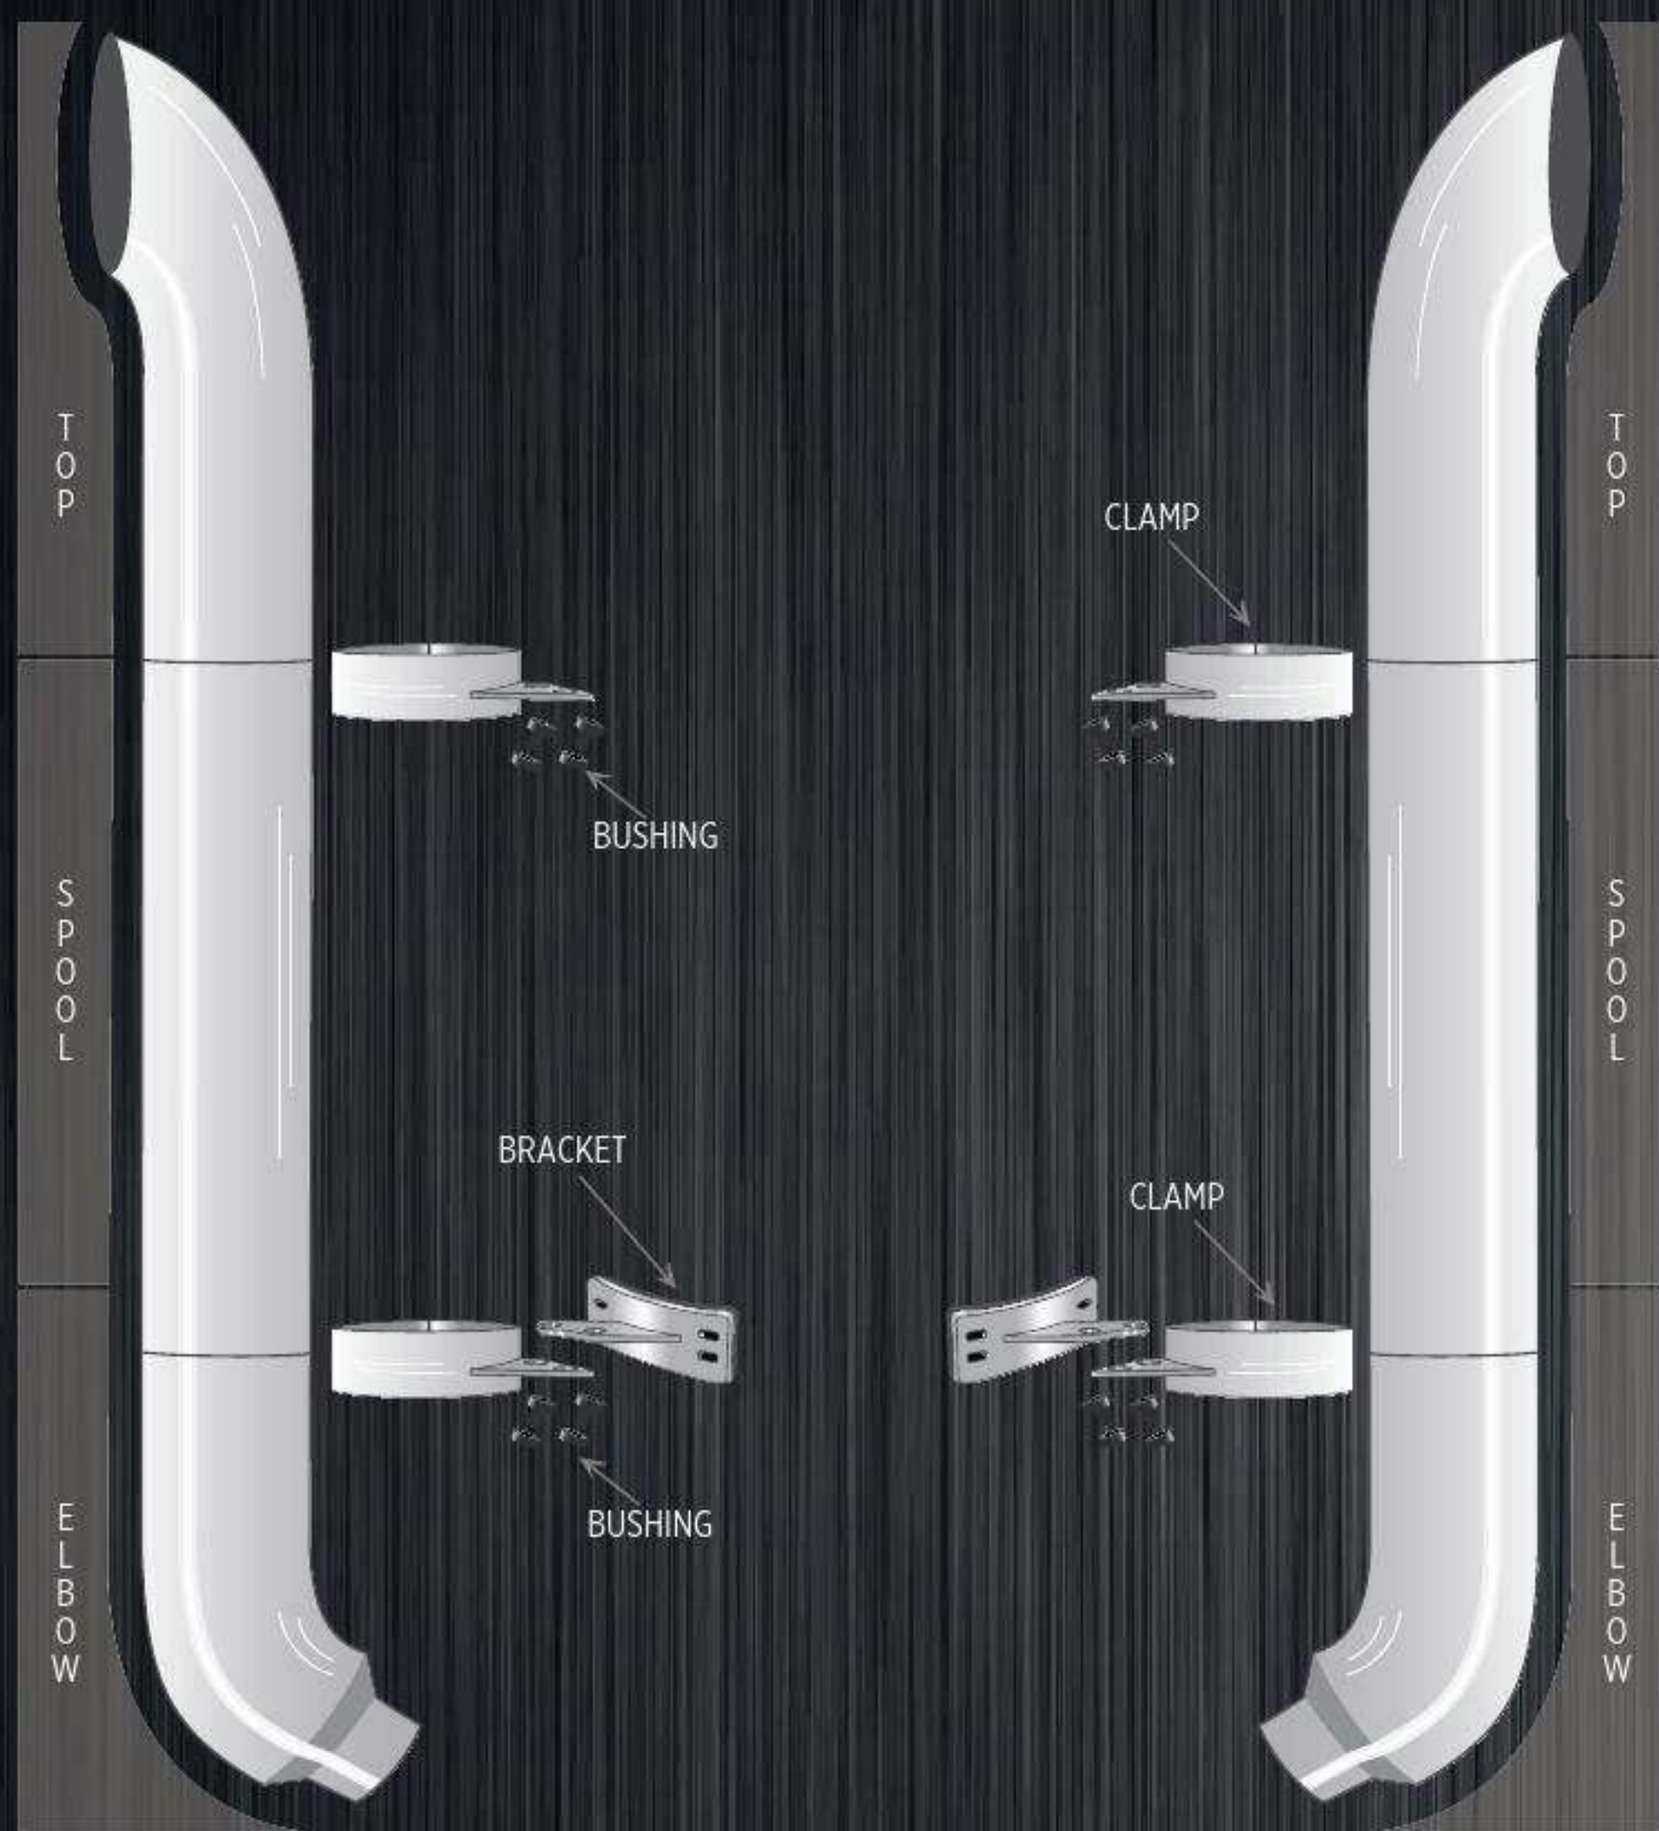
EXHAUST KITS WITH 58 DEGREE ELBOWS

Kits are made for trucks built in the year 2006 and down. Complete for both sides.



ALL KITS INCLUDE:

- TOP STACKS - 54" OR 60" HIGH (2 UNITS)
- MIDDLE SPOOLS - 52" HIGH (2 UNITS)
- 58 DEGREE ELBOWS (2 UNITS)
- 3 3/4" WIDE BAND CLAMPS (4 UNITS)
- LOWER MOUNTING BRACKETS (2 UNITS)
- BLACK BUSHINGS (8 UNITS)

All elbows are reduced to 5" in diameter so you can use them with a 5" diameter "Y" pipe. All clamps are high quality chrome stainless steel allowing the clamp to have the same mirror shine as the exhaust for a clean uniform look.

EXHAUSTS

MIDDLE SPOOLS WITH PLAIN BOTTOM

Middle spools are made for trucks built in the year 2006 and down.

These spools come with an additional tapered sleeve measuring 8" attached to the top of the spool. This extra reduced sleeve fits INTO the bottom of any top stack (corresponding to the correct diameter) and gives the kit extra support and strength.

For Peterbilt 379 : use 52" spools if the year of the truck is between 1987-2003. Use 55" spools 2003-2006 (Some late model Peterbilt 379 in the year 2003 may need 52" spools) Please measure the distance between your upper and lower exhaust brackets for exact dimensions.

ATTENTION! THE BELOW MEASUREMENTS ARE THE LENGTH OF EACH SPOOL AND DOES NOT INCLUDE THIS ADDITIONAL REDUCED SLEEVE. IN OTHER WORDS, WHEN EVERYTHING IS ASSEMBLED CORRECTLY, YOU WILL BE ABLE TO VISUALLY SEE EITHER 52" OR 55" SPOOLS.

MIDDLE SPOOLS WITH 5" REDUCED INNER DIAMETER BOTTOM

Middle spools are made for trucks built in the year 2006 and down.

These spools come with an additional tapered sleeve measuring 10" attached to the top of the spool. This extra reduced sleeve fits INTO the bottom of any top stack (corresponding to the correct diameter) and gives the kit extra support and strength. * Your common 5" outer diameter elbows will fit inside these spools.

For Peterbilt 379 : use 52" spools if the year of the truck is between 1987-2003. Use 55" spools 2003-2006 (Some late model Peterbilt 379 in the year 2003 may need 52" spools) Please measure the distance between your upper and lower exhaust brackets for exact dimensions.

SHIPPING POLICIES (anywhere in North America) :

BRONZE PACKAGE
SILVER PACKAGE
GOLD PACKAGE — FREE SHIPPING

* Always shipped complete.
* Each shipped box will be labeled with the package part number as well as the individual part number. For example, PACKAGE PART # TRX-C2 (Box 1 of 6) and INDIVIDUAL PART # TK-0111
* When ordering, please let us know your requested date for your package to be delivered to your location. We can then confirm those dates.
* To be accurate when ordering, check the correct manufacturing date of your truck (best way is to call your local dealership and verify your VIN number). If your truck is manufactured between the dates to the left, then all products in the truck model packages for your truck will fit and install properly.
