

Door System and Washer Pump Components

2018 Application and Illustrated Guide
ACI-800

COMMON FAILURES OF A POWER WINDOW REGULATOR

Your car's window lift motor is involved in the everyday use of your vehicle. Throughout its lifetime, it's subjected to extreme conditions in harsh environments. On average, a person rolls their window up and down 4 to 5 times a day. That's over 1,825 times a year!

All ACI® brand window lift products meet our stringent product validation standards and in many cases offer a design improvement over the O.E.

SPIRAL CABLE TYPE

BROKEN CABLE

Spiral cables wear, fray and eventually break disabling the window & damaging other components

SHEAR TYPE

STRIPPED TEETH

Shear teeth wear and strip disabling the gear components which can also cause the motor to fail

Door Systems & Windshield Washer Components Application & Illustration Guide

Warranty

ACI warrants to its direct purchasers of product for resale that such product will be free from defects in material and workmanship for a period of one (1) year from the date of installation or 12,000 miles (whichever occurs first), subject to the limitations below. ACI will, at its option, repair, replace or issue credit (based on the original net selling price) for such product if it is proven defective within the warranty period under normal use and service. Any product alleged to be defective must be returned to ACI at its direction and accompanied by proof of the date of sale to the original customer.

This warranty does not include the cost of removing or returning the product, installing any replacement product or replacing any other parts or for other expenses, charges or damages, including, without limitation, labor costs. This warranty does not apply to products that have been: 1) altered; 2) improperly installed, maintained or repaired or installed on a second engine or motor vehicle; 3) damaged by accident, negligence or misuse; 4) used in commercial, fleet, heavy duty, off road, public or governmental vehicles; or 5) returned with missing components or parts that were originally included in the product packaging.

THE WARRANTIES SET FORTH HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES WHETHER EXPRESS OR IMPLIED. ALL IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXCLUDED AFTER ONE (1) YEAR. ACI IS NOT RESPONSIBLE FOR INJURY, PROPERTY DAMAGE OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING DIRECTLY OR INDIRECTLY OUT OF THE USE OF THE PRODUCT (REGARDLESS OF THE FORM OF ACTION), NOTWITHSTANDING THE FACT THAT SAID INJURY, PROPERTY DAMAGE OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES AROSE DIRECTLY OR INDIRECTLY FROM AN ACTUAL OR ALLEGED DEFECT IN MATERIAL AND/OR WORKMANSHIP.

ACI® WINDOW DOOR COMPONENTS

Door System Components

87900

Z87900 ACI Plus

Heavy Duty Hand Riveter used to easily install window regulators and window lift motors.

Use to attach rivets on regulators and motors to door.

Rivet sizes included are 1/8", 5/32", 3/32", 3/16", and 1/4".

Includes extension for hard to reach places

387906

Z387906 ACI Plus

Automotive Rivet Kit used to easily install window regulators and window lift motors.

Most common rivets used for door systems and automotive repairs.

Rivet sizes included are:

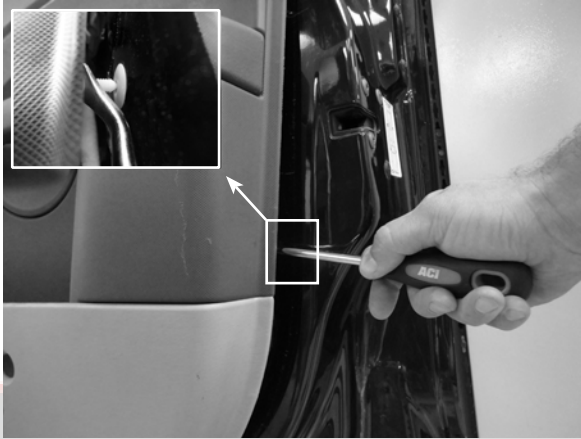

- 3 pieces 1/4", Grip Range 5/8"-3/4"
- 7 pieces 1/4", Grip Range 1/8"-1/4"
- 5 pieces 3/16", Grip Range 1/2"-5/8"
- 5 pieces 3/16", Grip Range 3/16"-1/4"
- 4 pieces 5/32", Grip Range 3/16"-1/4"

Door System Components

387905

Z387905 ACI Plus

Heavy Duty Door Panel and Trim Removal Tool Set aids in removing automotive panels, trim, and molding.

Use to remove panels from door

Three "U" slotted tools

3/16" - 5/32" (4.8mm - 3.9mm)

3/8" - 5/16" (9.5mm - 7.9mm)

7/16" - 13/32" (11.1mm - 10.3mm)

Hardened steel shaft

87901

Z87901 ACI Plus

Door Panel and Trim Removal Set used to easily remove interior and exterior trim and door panels without marring.

Use to remove switches from door

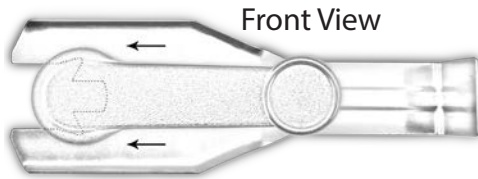

Use to remove door panel from door

Door System Components

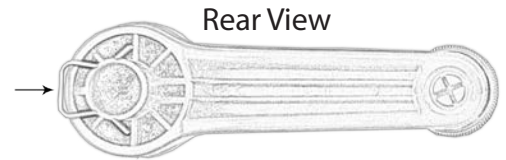

387902

Z387902 ACI Plus

Window Handle Removal Tool easily removes automotive window crank handles.

Place tool under handle as shown, push in direction of arrows. Pull off tool and window crank handle.

To reinstall window crank handle, push clip in to window crank handle, push window crank handle on to post until it snaps into place.

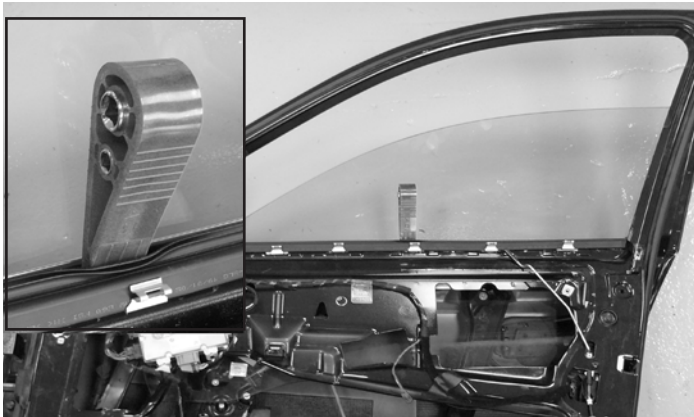

ACI
Quality &

387903

Z387903 ACI Plus

Wedge Tool holds automotive window in place during door system installation and repair.

Includes two sockets in sizes popular in installation of door system components

Power Window Diagnostic Flow Chart

¹ Caution: Some arm type regulators have a strong coiled spring used to assist the window operation. When removing the old window motor and installing the new window motor, it will be necessary to clamp the regulator's large sector gear to stop the spring from uncoiling.

² Note: An easy check is to watch your interior lighting when the switch is operated. If the interior lights dim slightly in both directions, your switch is OK. You can also put a test light across the window motor terminals. The test light should light in the up and down positions only. Also check for any frayed or loose wires and repair if necessary.
