Custom patterns, purpose built fabrics, made to order with US-based manufacturing since 1986.

Largest selection of licensed camo patterns plus tactical seat back storage system.

Universal products designed to fit many vehicles to offer you the lowest price possible.

Tarra Home makes protective products to preserve your furniture and other household goods.

Put your brand and graphics on canopies, banners, table covers, and flags.

## VISION & VALUES

We delight our customers by protecting and enhancing their belongings.

We brighten our future by the actions we take today:

- We live to the ethical and legal standards of the land we operate in.
- Our suppliers are partners who receive fairness and clarity in their dealings with us.
- Our customers are the focus of every decision we make.
- Our employees contribute, to their fullest, toward the realization of our vision - and share in our combined success.

## COMPANY CULTURE

Coverking enjoys an environment of empowerment for all employees. We have thrived in the market by keeping our focus on our customers, vendors, and employees. Through advanced automation and production methods, Coverking's U.S. workforce produces world-beating quality at competitive prices. Coverking's office and production employees work in a clean and comfortable environment, are provided first-class health insurance, and enjoy many perks.

Company goal to have all employees making a minimum of \$15 by 2019.

All employees are provided first class medical insurance

Coverking is Fair Labor Association certified - ensures quality labor practices.

Paid time off is provided to ensure employees a high quality of life outside of work.

“Great quality, heavy-duty, and it fits magnificently...”

ON OUTDOOR MATERIALS

ELASTIC AT FRONT & REAR  
SECURE COVER

FEWEST SEAMS POSSIBLE

COVERKING

OTHERS

Fewer seams means less risk of seam failure, seam leakage, or damage to your vehicle's finish.

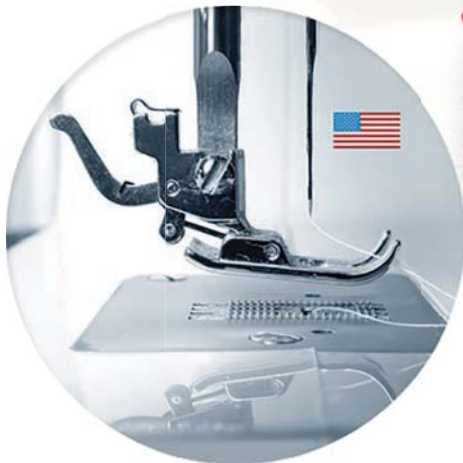

## COVERKING ADVANTAGE

Coverking's custom car covers are made to protect vehicles from hazardous conditions while ensuring a clean, durable, custom fit.

- Coverking chooses to use fewer, larger pieces of fabric than our competitors to reduce the amount of seams in your cover.
- All outdoor covers are sewn using double needle and overlapped seams, resulting in a durable, leak resistant seam which has a backup stitch if the main stitch fails.

- Coverking developed the widest selection of custom car cover materials, choosing to engineer it's own fabrics instead of relying on "off the shelf" materials.

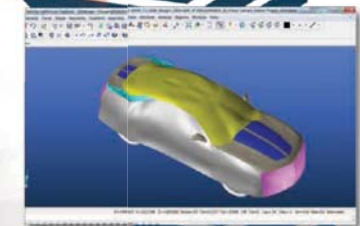

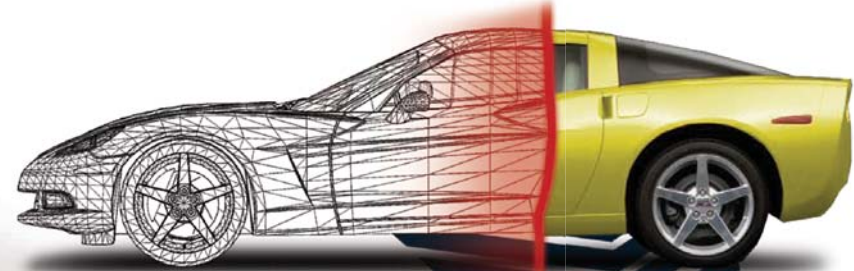

## CUSTOM & UNIVERSAL

A universal cover is designed for the "average car" that is approximately the same size as your car. There won't be any allowances for any unique features on your car. A custom cover is made specifically for your model.

## TRUE CUSTOM PATTERNS

Like a fine suit, your cover is made to fit the curves and features of your vehicle. One of Coverking's pattern designers spent time with your model vehicle and used 3D scanners to record every compound curve and detail. That data is then used to create a world-class cover with the fewest seams possible. Custom mirror and antenna pockets are sewn in to allow the cover to rest snugly on your vehicle's exterior.

## COVERGUARD™ UNIVERSAL

# GRAPHIC COVERS

Coverking is taking customization to a whole new level with the industry first digitally-printed car cover. With advance 3D scanning technology, we are able to create, panel by panel, a graphical replica of popular vehicles. Each curve, line and contour has been digitally mastered by our design team to reflect the exact scaling of the actual vehicle. The result is the perfect harmonious juxtaposition of art and car.

# AVIATION COVERS

The proven fit and quality of Coverking custom vehicle covers are also available for the aviation industry. A Coverking pattern maker is available to visit your aircraft to take measurements for a perfect fit. We are close to Orange County John Wayne (SNA), Long Beach (LGB), Ontario (ONT), and other airports in Southern California.

# CUSTOM A/C COVERS

Covering your air conditioning unit is part of good A/C winter care. Covers keep out dirt, insects, leaves and debris that otherwise invade, accumulate and leave deposits inside the unit and on coils. Without a cover, wind and rain drive contaminants further inside—into and between coils, posing a real hindrance to efficient cooling. A cover will also protect the exposed cabinet and extend the life of your AC in function and appearance.

# CUSTOM SEAT COVERS

## SEAT FUNCTIONS PRESERVED

Engineered around your seat features including folding, moving, sliding, controls, armrests, airbags, heat/cool.

## STANDARD MAP POCKETS

Integrated, full-width, seat-back storage pockets come standard.

## INSTALLATION KIT

Each row comes with everything you need for a smooth and safe installation including installation tool and protective gear.

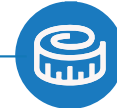

## QUICK INSTALLATION

Individual slip-covers slide over your seat and buckle, or zipper in place.

## CONSOLES COVERED

Truck & SUV consoles are covered to match the rest of the row.

## A PERFECT FIT GUARANTEED

Designed for your seat row specifically for an unbeatable look and performance.

## PROTECTIVE BARRIER

Shield your seats from wear, stains, UV rays and more while personalizing your interior.

## QUALITY HARDWARE

Purpose-built and sourced hardware including YKK™ zippers ensure a long service life.

## NON-SLIP MEMBRANE

Traction pads keep seat bottom cover securely in place and ready for interrupted use in the field.

## INSTALLATION VIDEOS

Vehicle specific step-by-step videos available for popular models.

## ARE COVERKING SEAT COVERS SUPERIOR TO OTHERS?

Coverking takes pride in every step of the process, from quality materials to the best engineered patterns. We could talk all day about why we think our product is best, but instead, we ordered some other "custom" seat covers and did some side-by-side comparison so you can see the stark differences yourself.

# PREMIUM SEAT COVER EXPERIENCE

Coverking custom seat covers are engineered for ease of installation, amazing tailored fit, and a long service life. To ensure these goals are met, we provide our valued customers with tools and knowledge for a successful installation, a no-hassle return policy and an industry-leading repair/replace warranty. Even after the warranty period, Coverking Care can extend the life of the product by repairing or replacing worn pieces.

## INSTALLATION VIDEOS

Watch Coverking technicians install seat covers on your vehicle's seat row. Follow along through the easy, step-by-step instructions and you'll have a professional quality installation that will make your seat covers look and feel their best.

## INSTALLATION KIT

To ensure a quick, painless, well-performing seat cover installation, Coverking includes a comprehensive kit in each order.

If you're not entirely satisfied with your purchase, return it for a refund.

Coverking stands behind our seat covers with industry leading repair/replace warranties.

Extend the life of your Coverking seat covers after the warranty period expires! You can use our Coverking Care program to refurbish or replace worn pieces.

# LEATHER INTERIOR KITS

## REPLACEMENT LEATHER UPHOLSTERY

Coverking produces automotive leather interior kits for cars, trucks and SUV's for the OEM and aftermarket. Professional grade installations completely replace stock cloth upholstery. Installation is not included in the final cost. Not currently available outside of the US.

### COLOR MATCH

Only OE color matching leather from leading vehicle manufacturers is used in Coverking interior kits.

### AIRBAG

Our product has been certified for the compliance of Side Airbag Deployment Test and Suppression testing.

- Genuine Leather
- OEM Airbag Seams
- 3 Year / 36,000 Mile Warranty
- Professionally Installed

Designed to replace the factory seat covers completely. When professionally installed, our leather interior packages look, fit and feel as good as or better than the factory leather interior.

# SPECIALTY FLOOR MATS

## WORLD CLASS FLOOR MATS

Our design and quality is top rated as evidenced by our client base. We have worked and manufactured for the automotive industries top custom design organizations; Foose Designs (Chip Foose), Noone Customs (Jerry Noone) and the world famous West Coast Customs organization.

## FLOOR MAT CAPABILITIES

Upon prototype approval, Coverking moves into manufacturing, producing the highest quality mat to the approved design. Our facility & production capabilities are designed to handle one mat or large scale production runs. In addition, Coverking is able to ship & distribute according to your needs. Coverking will provide a high degree of personalization for every client we work with. Our stringent quality systems ensure that each set of mats is produced to spec and will meet the highest standards demanded by the Coverking clientele.

## PREMIUM PLUSH

\$\$\$

- High density type 6 nylon cut pile carpet
- Thicker carpet than most factory mats
- Custom cut to fit your vehicle's foot-well perfectly - often better coverage than factory
- Edges are bound and stitched with beautiful color matching thread and binding
- Integrated antistatic control
- Non-slip rubber spiked backing to prevent slipping
- Scotchgard™ treated for stain and soil resistance
- Integrated factory grommets for attachment

## LOOP

\$\$

- High-density, level loop, Olefin style carpeting
- Strong, colorfast, comfortable
- Resists staining, mildew, abrasion and sunlight
- Custom cut to fit your vehicle's foot-well perfectly - often better coverage than factory
- Edges are bound and stitched with beautiful color matching thread and binding
- Integrated anti-static control
- Non-slip rubber spiked backing to anchor the mat in the foot-well and prevent slipping
- Scotchgard™ treated for stain and soil resistance
- Integrated factory grommets for attachment

## LUXURY PLUSH

\$\$\$

- Ultra heavy, very high density Ultron decadence type 6 nylon, velvet cut pile carpet
- Incredibly luxurious, deep feel
- Custom cut to fit your vehicle's foot-well perfectly - often better coverage than factory
- Edges are bound and stitched with beautiful color matching thread and binding
- Integrated antistatic control
- Non-slip rubber spiked backing to prevent slipping
- Scotchgard™ treated for stain and soil resistance
- Integrated factory grommets for attachment

## CLEAR VINYL

\$

- Allows factory carpet or mats to show through
- Nibbed backing holds mats securely in place
- Custom cut to fit your vehicle's foot-well perfectly - often better coverage than factory

## FLOOR MAT CONFIGURATIONS

Coverking's floor mats are custom cut for your specific vehicle. Depending on your vehicle's year, make, and model Coverking has patterns to cover all footwell spaces and cargo spaces. When you order your floor mats you can choose from the following configurations to protect different spaces.

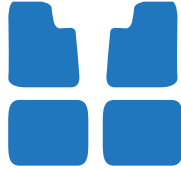

### FRONT ROW DFMA

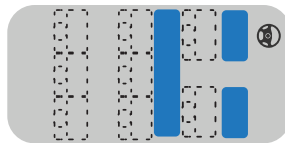

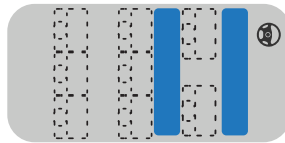

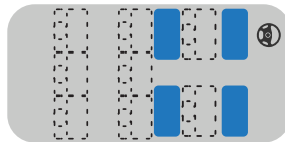

Application examples:

### FRONT ROW & SECOND ROW DFMB

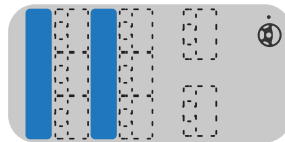

Application examples:

### REAR TWO ROWS OR TRUNK DFMC

Application examples:

## CUSTOM CARGO LINER

- Made from ultra-tough vinyl material Velocitex™
- Offers complete cargo area protection, including backs of rear seats, sides of cargo space, tailgate and bumper
- 2 year warranty

# CUSTOM DASH COVERS

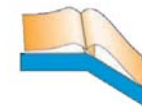

3 Materials & 39 Styles

“Protects from the hot sun and reduces glare. Fits right in just like from the factory. **PERFECT!**”

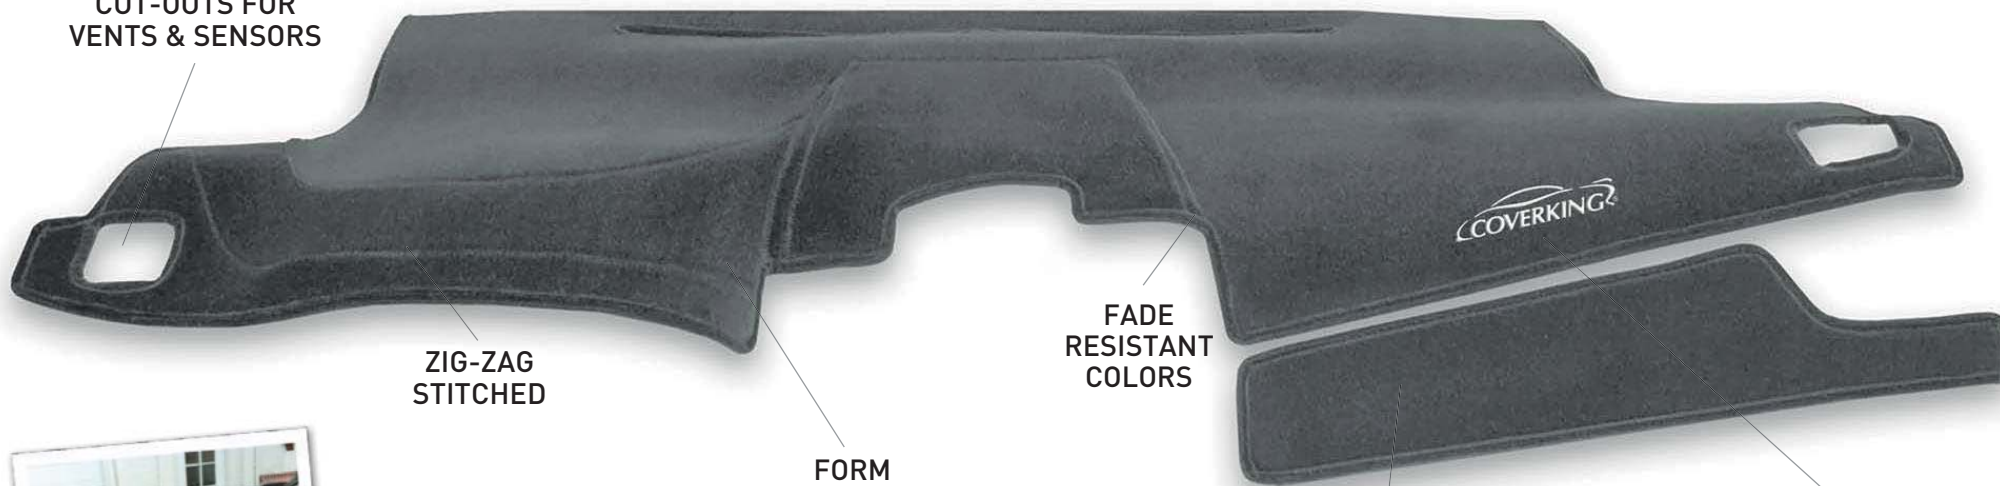

**“ZIG-ZAG” STITCH**  
We use this more difficult stitch that acts as a hinge that allows the material to follow the contours of the dash perfectly.

**“BLIND” STITCH**  
Our competitors use this easier stitch, which causes the material to lift off the dash - causing poor fit and performance.

## POST WARRANTY REPAIR

If you wish to repair or replace your Coverking product after the warranty period has expired, you can use our Coverking Care program to refurbish your Coverking product. The cost varies by the type of product.

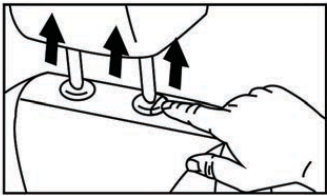

# INSTALL: SEAT COVER

## BEFORE INSTALLATION:

- Each vehicle and seat has unique installation, the following information serves as a guide more than step-by-step instructions. You may see pieces and procedures that do not apply to your seat cover installation.
- Read entire installation instructions before proceeding
- Use caution when reaching under power seats - some seats have sharp mechanisms.

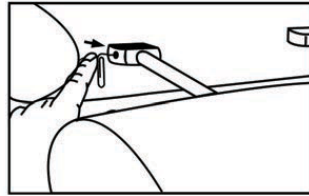

## 1. If Your Seats Have Removable Headrests - Remove Them

Depending on your vehicle, you may have to press tab(s) in, poke a paperclip, or press in a slot. This may require two or more people. Here are some examples:

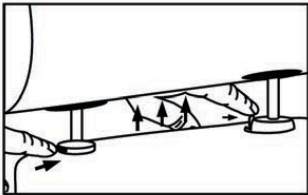

### A. Tab(s) at headrest base

If your headrests have tab(s) at the base of the headrest, depress them and lift the headrest out. This may be easier with more than one person.

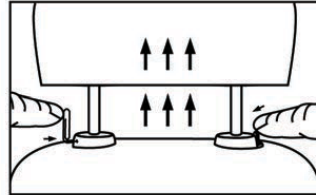

### B. Pin holes on headrest

If your headrests have small holes instead of visible tabs, insert a paperclip end into the hole. While pressing the paperclip in, lift headrest. This may be easier with more than one person.

### C. Slot and Tab at headrest base

If your headrests have tab(s) and a slot at the base of the headrest, depress the tab and press into the slot at the same time, and lift the headrest out. This may be easier with more than one person.

### D. Pin hole and tab at headrest base

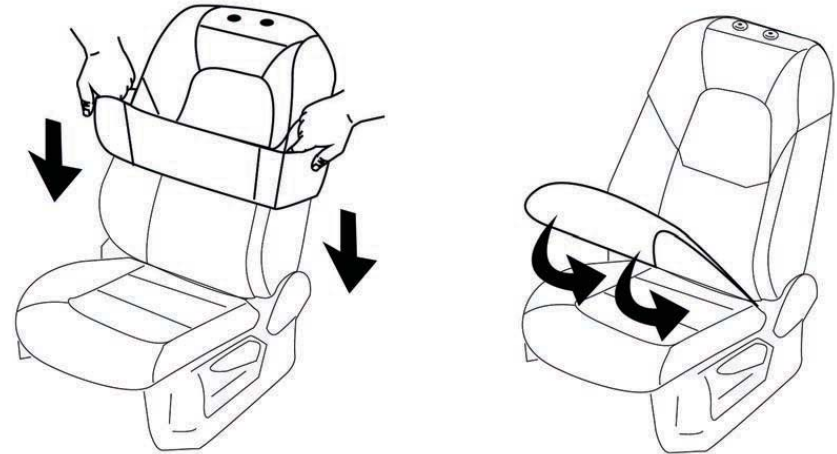

If your headrests have tab(s) and a pin hole at the base of the headrest, depress the tab and insert a paperclip end into the pinhole at the same time, and lift the headrest out.

## 2. Install Seat Back Cover

Depending on your seat style and vehicle, the installation process will differ. The following information will help you figure out how your specific covers install.

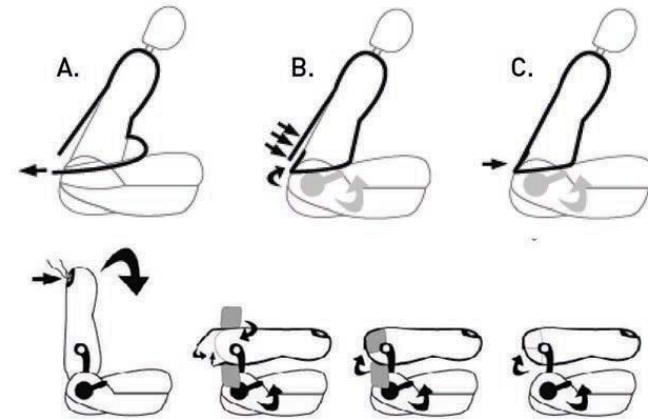

**IMPORTANT:** If your seats have integrated airbags, make sure you install the seat back covers in such a way that the airbag flaps are placed over the airbag location.

**STEP 1.** If the seat has an armrest, place it in the "up" position. If the cover has a zipper, unzip it. Pull cover over top of the seat. It may be helpful to start with the cover inside-out (as shown).

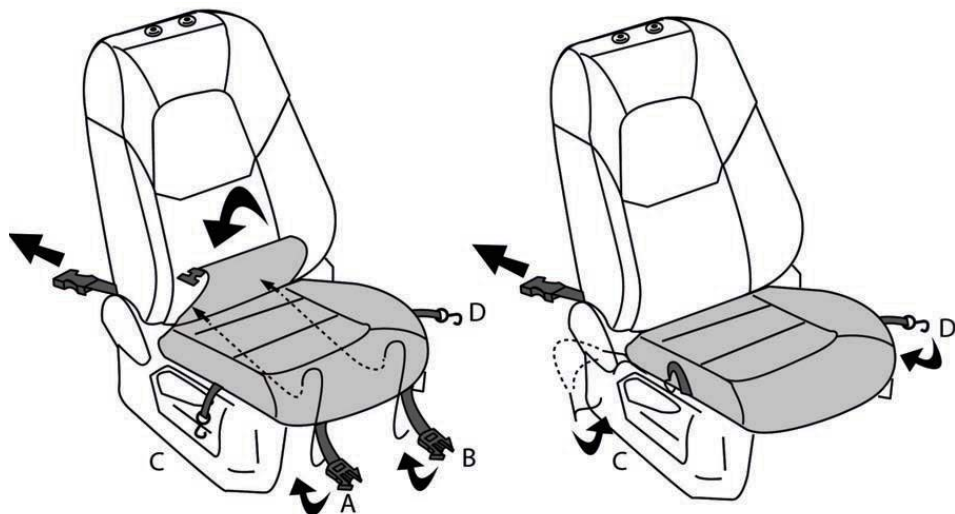

**STEP 2.** Pass the bottom flap through the opening between seat back and seat bottom, then attach hook and loop fastener.

**TIP 1:** It may be easier (necessary on some seats) to fold your seat forward to pass the flap through.

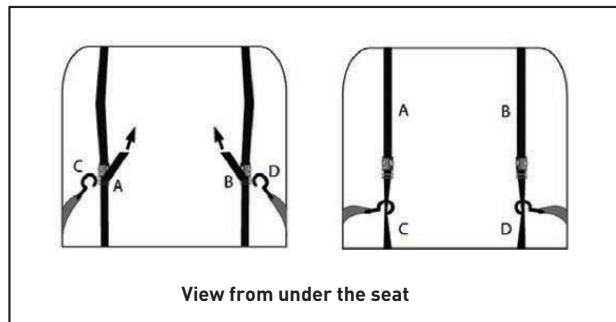

# INSTALL: SEAT COVER Continued

## 3. Install Seat Bottom Cover

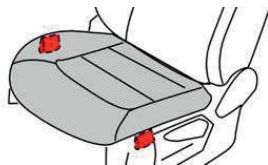

**Step 1.** Position cover over seat bottom. Pass flap between seat back and seat bottom. (Similar to the seat back cover installation, it may be easier if you fold the seat back forward) Join and tighten the buckles (A,B) under the seat.

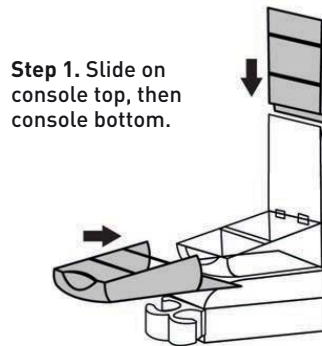

**Step 2.** Then attach the side hooks (C,D) to the buckle straps.

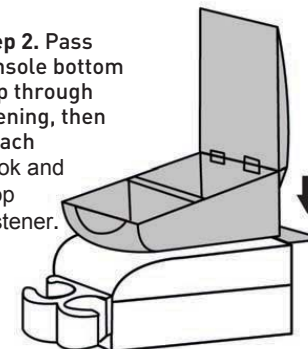

**NOTE: YOUR APPLICATION MAY NOT HAVE ALL STRAPS SHOWN. Instead, you may have a thick flap that wedges between your seat and the seat base trim.**

## 4. Install Console Cover (If Applicable)

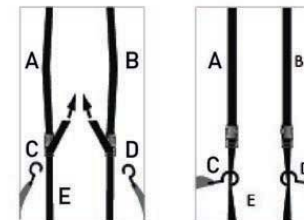

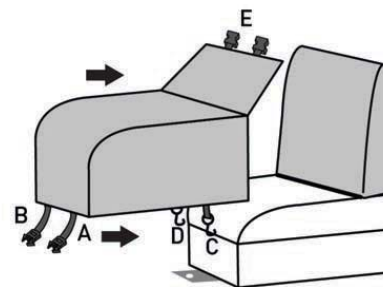

**Step 1.** Slide on console top, then console bottom.

**Step 2.** Pass console bottom flap through opening, then attach hook and loop fastener.

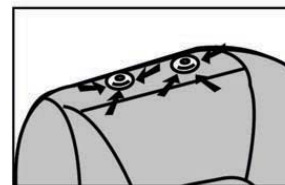

**Step 3.** Place base cover in place, slide flap (E) through. Attach and tighten the buckles (A,B) and attach hooks (C,D).

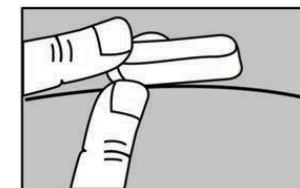

View from under the seat

## 5. Finishing Touches

**Headrest Holes:** Before you reinstall your headrests, stretch the material over the headrest bases. Tuck the material under the bases for a super clean, tight finish. Reinstall headrest.

**Tuck & Adjust:** Adjust material around armrests, levers, lumbar support adjusters, etc. Material should be tucked under/behind.

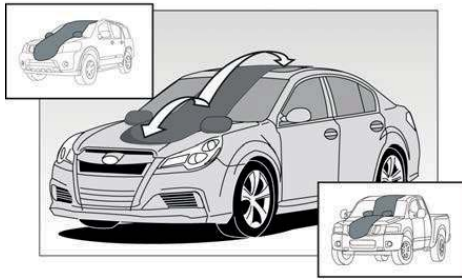

**Tighten After Break-in:** After the first 2 weeks of use, tighten the seat back covers by releasing the hook and loop fastener, pulling the material very tight, then re-attaching the hook and loop fastener. Also, tighten the seat bottom cover buckles.

# INSTALL: VEHICLE COVER

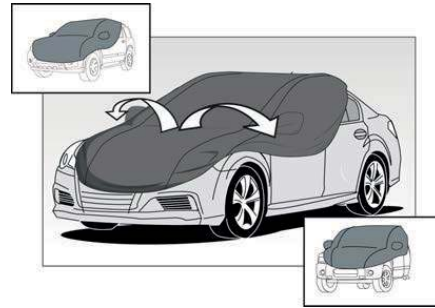

## BEFORE INSTALLATION:

- Read entire installation instructions before proceeding
- Make sure vehicle is clean and dry
- Check for any sharp objects on the vehicle that may damage the cover

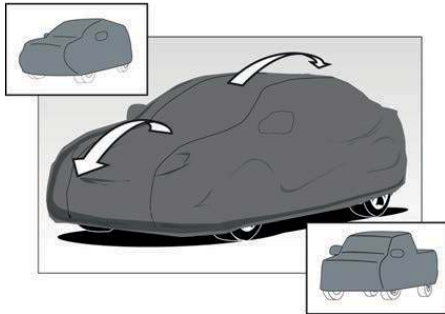

### 1. Unroll cover from front to back

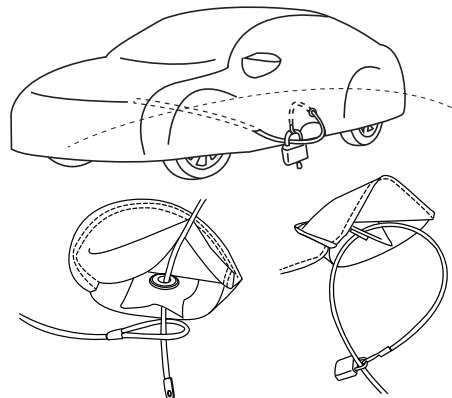

### 2. Unfold outward (first install mirror pockets over each rear-view mirror, if applicable)

### 3. Pull cover over front and rear bumpers (The elastic will keep the cover in place under normal conditions)

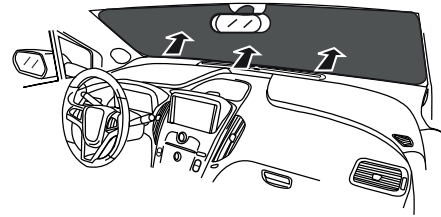

### 4. Secure with OPTIONAL Lock & Cable Kit for added security (Using the built-in grommets - outdoor materials only)

# INSTALL: SUNSHIELD

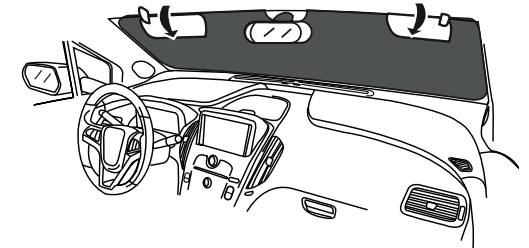

## 1. Deploy Sunshield

Place the sunshield inside the windshield behind the rearview mirror, with the logo facing outward.

## 2. Secure Sunshield

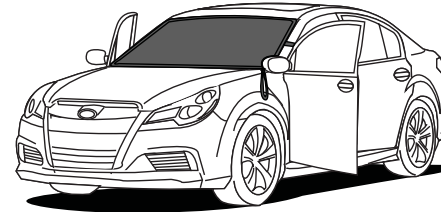

To keep your sunshield in place, lower both sun visors.

# INSTALL: FROSTSHIELD

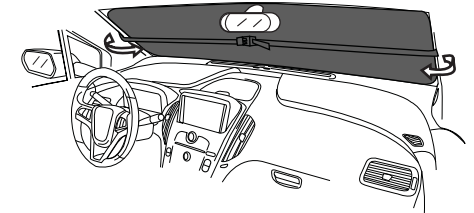

## 1. Open Doors

Open both front doors and place the Frost Shield on windshield.

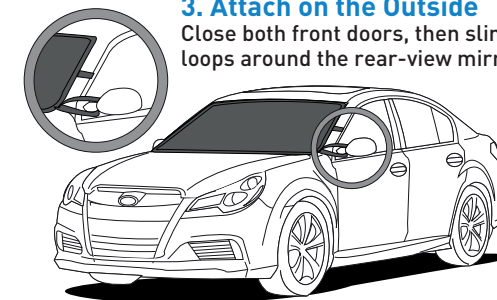

## 2. Attach on the Inside

Pull the webbing straps with the buckles into the interior of your car. Fasten and tighten the straps.

## 3. Attach on the Outside

Close both front doors, then sling the elastic loops around the rear-view mirrors.

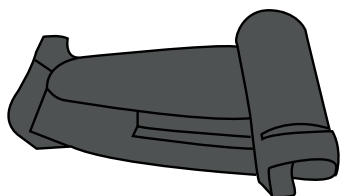

# INSTALL: DASH COVER

## BEFORE INSTALLATION:

- Read entire installation instructions before proceeding
- Make sure dashboard is clean and dry
- Remember to give your dashboard time to conform. It will shape and fit perfectly after a few days.

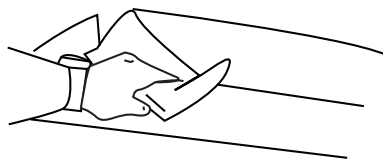

### 1. Unroll Cover

Allow it to lie flat overnight if possible.

### 2. Clean Dashboard

Wipe off with a mild detergent to remove polish or wax from the areas where the fasteners will be placed.

### 3. Pre-fit Cover on Dash

Align contours and cuts. Make sure the defrost vents (nearest windshield) align with the cutouts.

**TIP:** On some vehicles, the material must be pushed forward between the dash and windshield. Use a wooden ruler or paint stick if necessary.

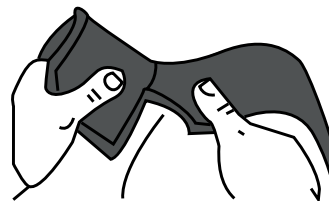

### 4. Apply Fasteners

Remove cover from dash. Cut the fastener strip into 1-inch pieces and apply where needed. You may need a few fasteners near the windshield (on each side), several small pieces at the front edge and one or more in each contoured area. To remove fasteners, slowly peel to avoid damaging vinyl.

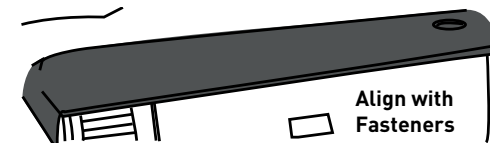

### 5. Pre-shape

Speed up the shaping process by bending or creasing the cover to help it conform to the curves of your dash.

### 6. Apply Dash Cover

Realign the cover with fasteners and set it into place for the final time.

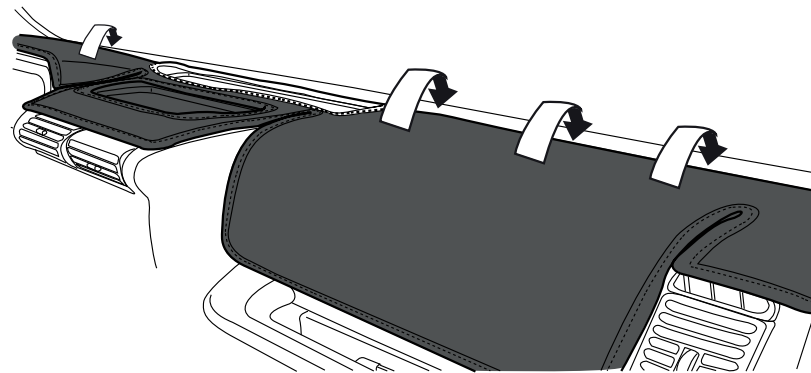

## Custom Dash Cover Notices

### AIRBAG

Your dashboard cover has been manufactured to allow for proper deployment of the airbag safety system. As designed, this product will not obstruct the airbag. You must not place any fasteners on this area, as doing so may obstruct deployment. Coverking assumes no responsibility for improper installation of dashboard covers, resulting in obstruction of airbag deployment.

### FITMENT ISSUES

If your cover seems too big and hangs over the front of the dash, be sure the cover is pushed all the way back between the glass and front of the dash. The vent cutouts should match the defrost vents. If needed, use a wooden ruler or similar to push the cover back.

**TIP:** Because of auto assembly tolerances or variations in the position of replacement windshields, dash covers may require trimming on the windshield edge.

### PLASTICIZER MIGRATION

This problem is common for certain car models. The plastic formulation inside the dashboard begins to break down, causing a darkened area to appear on the surface. This flaw may occur on both covered and uncovered dashboards. Coverking assumes no responsibility for such occurrences.

PROTECT WHAT MAKES YOUR HOUSE A HOME™

# PATIO FURNITURE COVERS

Durable patio furniture covers made from marine grade fabric available in 2 colors and 350+ sizes

# THE AURA COLLECTION

The Aura Collection by Tarra offers powerful protection from rain, dirt and snow combined with fade resistance and suitable features.

**PRESIDIUM™**  
400 Denier Tan and Gray and are backed by a 3-year warranty.

PRESIDIUM TAN

PRESIDIUM GRAY

- 

400D Aura covers are made from our 400D Presidium material which is treated with waterproof and Anti-UV properties backed up with a 3-year warranty and are available in Tan and Gray.
- 

Highly durable YKK Zipper sewn alongside the end seam allows for an easier installation and ensures a tighter fit.
- 

Velcro tie-downs are sewn onto the bottom corners and connect around the legs of your furniture to provide additional security during windy conditions.
- 

Air vents are strategically placed on Aura covers to allow for maximum breathability to fight off mold and mildew.
- 

Seams are double-stitch reinforced to prevent any moisture from running through the seam lines and provide additional strength.
- 

Nylon handles are sewn onto Aura covers to ensure a quick and easy installation and removal.
- 

Aura covers come with a built-in pull cord to give you control of the fitment you desire.

# CHAIR COVERS

Use Tarra to protect your Bar Chairs, Stacking Chairs, Club Chairs, Love Seats, Sofas and more.

# OTTOMAN COVERS

Use Tarra to protect your Round Ottomans, Square Ottomans and Rectangular Ottomans.

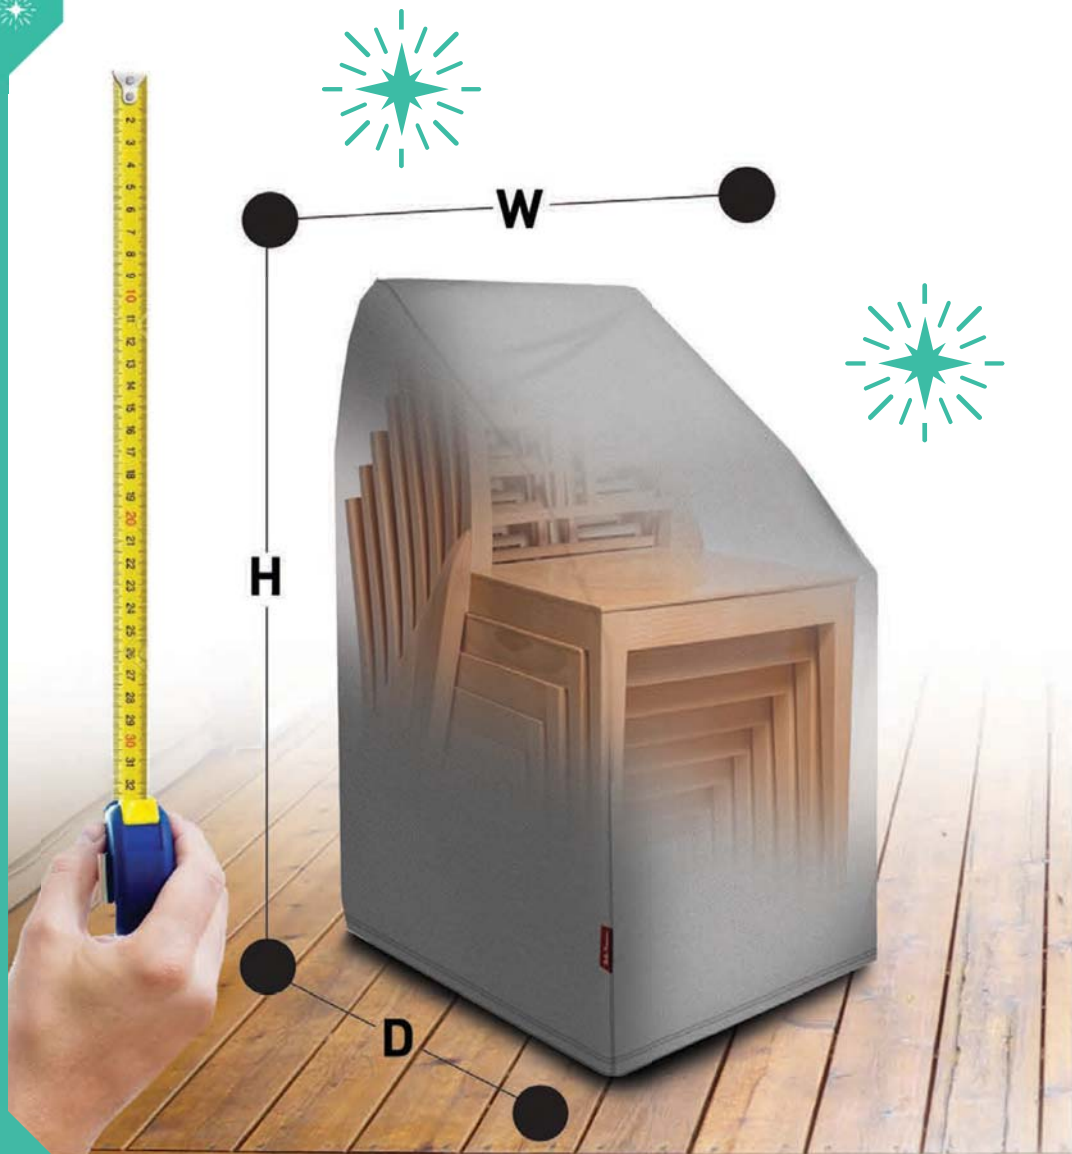

# TABLE COVERS

Use Tarra to protect your Dining Table Sets, Accent Tables, Side Tables, Picnic Tables and more.

# HOW TO MEASURE

Simply measure your furniture and select from a collection of standard covers that accommodate your furniture.

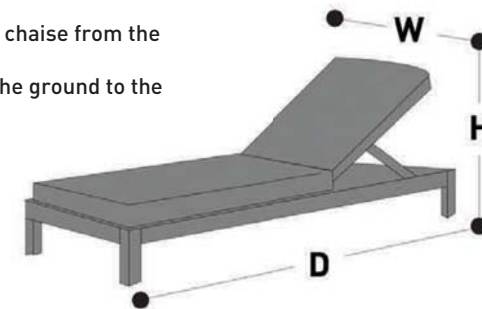

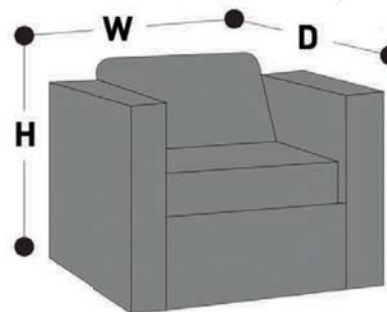

## CHAIR, CHAISE & SOFA COVERS

Precise measurements for your chair or chaise lounge can be easily found by following these directions:

W = Width - calculated by measuring from left to right across the front of the chair or chaise.

D = Depth - found by measuring your chair or chaise from the back to the front.

H = Height - determined by measuring from the ground to the top of the back of the chair or chaise.

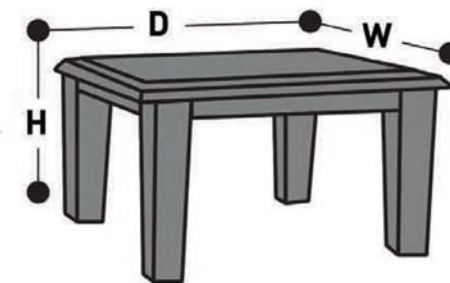

## ROUND TABLES & OTTOMANS

Measuring for patio table covers is easy with just a little preparation. Follow these steps to ensure a proper fit for your cover:

DIA = Diameter - found by measuring from one side of the table across to the opposite side.

H = Height (or drop) - determined by measuring from the top of the table to the ground.

## SQUARE & RECTANGULAR TABLES & OTTOMANS

To measure for accent tables, ottomans, and other accessories, follow these step-by-step guidelines:

W = Width - calculated by measuring the longest side of the item.

D = Depth - found by measuring the side adjacent to the Width (W).

H = Height (or drop) - determined by measuring from the top of the table to the ground.

# Lumbini™

LUMBINIGRAPHICS.COM

## ON DEMAND GRAPHICS SOLUTIONS

Lumbini Graphics is located in Anaheim, CA and is a division of Coverking that has been around the automotive printing and accessory game for 25+ years. The combination of our capabilities and experience allows us to provide our customers with complete solutions to their advertising and marketing needs.

## VINYL BANNERS
