UNIVERSAL Fit

AnzoUSATM is the answer for all of your performance lighting needs. With over 35 years of manufacturing experience, we surpass our competition in quality, innovative styling and product offerings. We are dedicated to providing great service and superior customer support through an experienced sales team and a knowledgeable technical staff. **AnzoUSATM** offers the best quality performance lighting products at an affordable cost. All **AnzoUSATM** products are SAE and D.O.T. compliant to FMVSS No.108; and manufactured in our state-of-the-art ISO 9002 and QS 9000 quality certified factory. Our lighting products are designed using CAD/CAM computerized equipment and these modern designs are then tested using a 3-dimensional testing machine to insure precision and accuracy in the research, development and design of our molds. In order to affirm resilience and durability, we rigorously test every **AnzoUSATM** lighting product in a Thermo-Hygrometer (temperature and humidity chamber) and a Rain-Resistant Tester. In addition, we thoroughly expose all of our products to intense photometric testing to assure strict compliance with local, state, federal and international standards. Our products go through strict testing for durability, impact strength, as well as fresh/salt water, dust/dirt resistance. In order to comply with safety regulations, all **AnzoUSATM** products must pass all quality inspections. After all safety checks and quality assurance, products are manufactured using the most advanced technological and economical methods available. Single, double, and triple shot injection machines produce our semi-finished products. After undergoing vacuum electro-plating or spray plating processes, products are combined through hot press bonding, friction bonding, or an automatic assembly line spin coater. Every **AnzoUSATM** product is backed by a ONE YEAR WARRANTY against manufacturer defects. With over three decades of professional manufacturing experience and with ISO 9002 and German T.U.V quality certification, **AnzoUSATM** has made itself a powerful competitor and leading brand in the world market. We strive to persistently meet ever-changing design specifications and needs; flexible, real-time service and preserving customer satisfaction. With our economical, pragmatic, and solid management, **AnzoUSATM** looks forward to building a bright future with our valued customers!

AnzoUSA™ performance automotive lighting products combine the cutting-edge in lighting technology and the O.E. quality that has consistently made us the first choice in aftermarket performance lighting around the world. From high performance lighting that improves driver safety, to lighting designed to enhance the style of your vehicle, **AnzoUSA™** offers automotive performance lighting that will improve your driving experience. The purpose of the lighting system of a motor vehicle is to provide illumination for the driver to operate the vehicle safely after dark, to increase the visibility of the vehicle, and to display information about the vehicle's presence, position, size, direction of travel, and driver's intentions regarding direction and speed of travel. This is important particularly during twilight conditions, at night and in poor weather conditions, lighting is a critical safety factor. For this reason, drivers should always insure that their vehicle's lighting system is working properly. **AnzoUSA™** manufactures performance lighting products for every type of vehicle and requirement, the optimal in lighting and up to 30% improved illumination of the road. These factors are sure to bring more safety to your driving experience. As the need for higher performance and ever-evolving technologies are coming to the forefront within automotive lighting, **AnzoUSA™** performance lighting products provide safer and more comfortable lighting as well as more attractive designs to stylize your vehicle and customize your ride. To insure safety, the quality of design and materials, all **AnzoUSA™** products are D.O.T and SAE compliant to FMVSS-108. What does this all mean to you as the consumer? It means that you can take comfort in knowing that our products are 100% street legal and compliant with all local, state and federal regulations.

FMVSS-108 (Federal Motor Vehicle Safety Standard 108) regulates all automotive lighting, signaling and reflective devices in the United States. Like all other Federal Motor Vehicle Safety Standards, FMVSS 108 is administered by the United States Department of Transportation's National Highway Traffic Safety Administration. The scope of these standards specifies requirements for original and replacement lamps, reflective devices, and associated equipment. Since the invention of the automobile, lighting has been an important subsystem on all ground vehicles. Automotive lighting is vital to passenger safety, comfort and vehicle styling. The technology used in automotive lighting is rapidly expanding to make the lighting more value added, safer and pleasing to consumers. **AnzoUSA™** is leading the way . . . Don't Get Left In The Dark!

HEADLIGHTS

AnzoUSA™ is proud to be the first-to-market with lighting products to enhance the look and safety of your vehicle. Our projector headlights are computer designed for innovative trend setting style using the latest in C.A.D. technology and equipment. Our quality projector headlights feature the newest halo design utilizing CCFL technology to insure high brightness, higher efficiency, lower power consumption and longer life. Cold cathode fluorescent lamp (CCFL), the newest technology in performance lighting, is a gas discharge lamp. CCFL is a light source classified as an electronic component; in the electric field, radiant energy makes constant and brighter phosphor lighting. Our precision application design and OEM style weather tight connections and wire harnesses' ensure a weather-resistant fit in even the toughest climates. With a simple plug and play installation, you can upgrade your ride with **AnzoUSA™** stout and stylish headlights adding custom style, design and additional safety. All **AnzoUSA™** quality products are D.O.T. compliant to FMVSS-108 and backed by a One Year Warranty.

L.E.D. TAILLIGHTS

With a simple plug and play installation, you can upgrade your ride with **AnzoUSA™** stout and stylish LED taillights, adding custom style, design and additional safety. All **AnzoUSA™** LED taillights are designed using CAD/CAM computerized equipment and these modern designs are then tested using a 3-dimensional testing machine to insure precision and accuracy in the research, development and design of our molds. LED's (light emitting diodes) give you increased light output, react faster and are more durable than any conventional taillight available. **AnzoUSA™** LED taillights are a direct replacement to your outdated factory OEM taillights and produce more light per watt than incandescent bulbs. Our LED's are precisely engineered and are complete kits that combine easy plug and play installation. LED's, being solid state components, are difficult to damage with external shock; fluorescent and incandescent bulbs are easily broken under severe conditions. Furthermore, LED's have an extremely long life span. Manufacturers have calculated the ETTF (Estimated Time to Failure) for their LED's to be between 100,000 and 1,000,000 hours. Fluorescent tubes typically are rated at about 10,000 hours, and incandescent light bulbs at 1,000-2,000 hours. LED's light up very quickly, a typical red indicator LED will achieve full brightness in microseconds. LED's use less power, emits almost no heat and offer superior brightness- over 10x brighter the incandescent bulbs. **AnzoUSA™** LED taillights offer a clean simple design that adds style, design and safety to any vehicle.

EURO STYLE TAILLIGHTS

AnzoUSA™ is dedicated to providing the best and broadest selection of application specific Euro/Altezza taillights on the market today. **AnzoUSA™** offers the best quality performance lighting products at an affordable price. All **AnzoUSA™** products are SAE (Society of Automotive Engineers) and D.O.T. (Department Of Transportation) compliant to FMVSS No.108; and manufactured in a state-of-the-art ISO 9002 and QS 9000 quality certified factory. With over 30 years of manufacturing experience, we surpass our competition in quality, innovative styling and product offerings.

LED 3RD BRAKE LIGHT

Here's a fast and easy way to stylize your car or truck! In just minutes you can replace your plain old stock 3rd brake light with the modern look of an **AnzoUSA™** LED 3rd Brake Light. It's so easy, simply remove your vehicle's stock 3rd brake light, unplug it from the stock wiring, plug in your pre-wired LED 3rd Brake Light, replace the screws (in the stock location) and you're done. It really is that easy to add this modern look of a real LED 3rd Brake Light to your vehicle. NO drilling, wiring or modification required! Our LED 3rd Brake Lights are a great addition to your vehicle's custom performance lighting package and offers the perfect compliment to **AnzoUSA™** LED taillights.

LED PARKING LIGHT

Upgrade your ride with the smart and stylish design of **AnzoUSA™**'s LED Parking Lights. From adding a touch of modern LED lighting style to rounding out a complete performance lighting overhaul, these lights have the popular upgraded LED look you need. **AnzoUSA™**'s line of replacement LED Parking Lights are sure to get your ride noticed. Using the newest technology available, our engineers here at **AnzoUSA™** have taken the tried and true replacement parking lamp and spruced it up with the cool styling of LED lighting and installation is a snap! Simply unbolt your factory parking lamps - your new **AnzoUSA™** LED parking lamps will install right in the same location. The wires even snap together with factory-style connectors. No wiring, no headaches - just great new lights.

EURO-STYLE BUMPER, CORNERS AND PARKING LIGHTS

Corner, bumper and parking lenses easily replace your factory lenses for hi-tech Euro style that'll get your vehicle noticed. Adds clean, modern Euro style to your front end and looks dramatically better than stock lenses. **AnzoUSA™** parking lights provide a great match for our projector or clear headlights and are easy to install. We take our parking lights one step further by making sure they will stand up to the demands of the road. We use a 3-dimensional testing machine to ensure accuracy in our designs and a Thermo-Hygrometer for temperature and humidity resilience. Every **AnzoUSA™** product is backed by a ONE YEAR WARRANTY against manufacturer defects.
