

EXIDE® LIMITED WARRANTY

Exide Technologies takes great pride in the batteries it manufactures and provides a limited warranty program for many of its batteries. There are 2 components of the limited warranty program for batteries covered by Exide's limited warranty: **FREE REPLACEMENT** and **PRO RATA**. Note: Exide will be discontinuing Pro-Rata Warranty on batteries shipped from Exide on or *after 10/1/2012*.

The label on the front of every Exide-labeled battery covered by Exide's limited warranty specifies the total number of months covered by the free replacement Period*. To determine the pro rata warranty period for your Exide battery please see the pro rata schedule. If your Exide battery part number is not on the pro rata schedule, then your battery is eligible only for the free replacement period and not for the pro rata limited warranty.

The pro rata period applies after the free replacement period expires, until the end of the total limited warranty. So for a battery with 84 total months in the limited warranty, and a 30 month free replacement period, the free replacement limited warranty applies in months 1 through 30 and the pro rata limited warranty applies in months 31 through 84.

NOTE: This limited warranty limits Exide's responsibility to providing a replacement battery or a pro rata purchase price in the event of defects in materials or workmanship, under the below terms. Warranty law varies from state to state, however, and so you may also have additional legal rights depending on your state's laws.

If your battery fails, we recommend the following course of action:

- 1- Determine if the battery needs a boost or replacement. Most batteries that fail are simply discharged and need a boost.** Exide recommends having the battery tested first to determine the cause of failure. If the battery is simply in need of a boost, have it re-charged and re-tested.
- 2- If the battery is still not working properly, you can determine if the battery is under the free replacement period by referring to the free replacement period on the front label, and checking the date on your original receipt.*** If the battery is under the free replacement period, it can be replaced with a new replacement Exide battery of the exact same type at no charge to you (other than any applicable installation charges).
- 3- If the battery is outside the free replacement period, you will need to determine whether the battery is eligible for the pro rata program. To determine how long the battery has been in service, and whether it is eligible for the pro rata program look at your original battery receipt or if the receipt is not available, look at the battery dater punch-out on the label.

* If the label does not reference a warranty period, this limited warranty program does not apply, and Exide does not provide any warranties except as otherwise required by applicable law. Warranties may be offered by the seller at your place of purchase, but Exide is not responsible for any such warranties.

**THIS WARRANTY DOES NOT COVER merely discharged product, damage to the battery caused by abuse or neglect, or damage to batteries which are opened, tampered with, or otherwise altered in any manner including, but not limited to, the introduction of any special additives or electrolyte into the battery. In addition, use of a battery in a non-specified application may void the limited warranty, such as using automotive battery for commercial and/or marine applications.

***Proof of purchase is required (original receipt) for the free replacement warranty.

EXIDE® FREE REPLACEMENT WARRANTY

If a battery is returned within the Free Replacement Period (calculated from the date of sale as shown on your sales receipt) for failure to perform due to defects in materials or workmanship, you are entitled to a new replacement Exide battery of the same type at no charge (subject to any applicable installation charges, taxes and government required fees). You can have this done at an authorized Exide battery retailer.

EXIDE® PRO RATA LIMITED WARRANTY

Please note that for batteries shipped effective 10/1/2012, Exide will be discontinuing the pro rata Limited Warranty.

How do you tell if a battery is eligible for pro rata Limited Warranty credit?

- Check the part number and label. Exide branded batteries with the part numbers listed in the pro rata Schedule are eligible for pro rata Warranty.

If a battery is returned within the pro rata Replacement Period (calculated from the original battery receipt or if the receipt is not available, look at the battery dater punch-out label) for failure to perform due to defects in materials or workmanship, you will only be charged a prorated amount for a replacement battery of the exact same type. You can obtain a replacement battery for the prorated price at an authorized Exide battery retailer.

Explanation for what you will be charged for the replacement battery during the pro rata Replacement Period:

The following calculation will be used to determine the cost of the replacement battery:

1. Look up the battery part number on the attached pro rata Schedule and identify the amount listed in the "Warranty Cost Per Month" column.

Note: Warranty Cost Per Month has been determined by dividing the Suggested Retail Price (not the actual selling price) by the number of months in the Total Warranty Period.

2. Calculate the replacement battery cost as follows:
 - The Warranty Cost per month is multiplied by the number of months the battery was in service.
 - Months in service are determined from the original battery receipt or if the receipt is not available, look at the battery date punch-out label.
