

**Stainless Steel Accessories**

# About Kentrol

At Kentrol, we know you love your Jeep. We love Jeeps too. That is why we go the extra mile to design Jeep accessories that look good, provide superior durability, and outperform the factory originals.

“Surround yourself with quality” is more than just our slogan – it is the standard that we’ve set for our products and for ourselves. Our accessories are manufactured with the highest quality stainless steel, offered in multiple finishes with marine-grade stainless steel hardware. When applicable, we make many of our products slightly oversized to cover any exposed paint seams.

All of our products are fully inspected for optimal fit, finish, and hardware, and are backed by a limited lifetime warranty.

As Jeeps evolve, we stay on top of the market and optimize our design and manufacturing processes to adapt to those changes. With new products constantly being added to our line, we work to help you keep your Jeep beautiful and trail-ready for years to come. Be sure to check our New Products section often on our website or in our catalog to see what we have been up to! You can also check in with us on the Blog section of our website, as well as on Facebook and YouTube.
