# THIS IS A GREAT BOX.

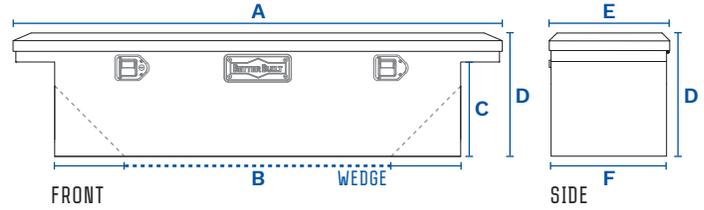

*"I had a pickup truck tool box from one of the big box stores. It never closed on both sides at the same time. The lock was finicky and took several minutes to unlock or lock.*

*"Then my sons bought me a Better Built box for my birthday. It's like going from a '63 Volkswagen to a Cadillac. It closes perfect on both sides; the locks work as intended. A great feature is that you can unlock and open the box from either side, but after closing, the opposite side lock stays in the locked position so that you don't have to go around to lock the other side. This is a great box."*

I sold the truck and box to my brother for his Trucking Company in 2006, and he used the box to secure large tools.
