

**MAGNETI
MARELLI**

Bulbs

The **Bulbs**

Xenon

Bulbs with Xenon technology. Available in all the main formats.

Standard

Light bulbs for Cars, Motorcycles and Light Commercial Vehicles. Available in the main halogen and auxiliary.

Long Light

Long-life bulbs. Thanks to their special technology they last up to twice as long as a standard bulb (depending on conditions of use). Particularly recommended on halogen DRLs.

+50% Light

Providing up to 50% more light, these bulbs are the best compromise between brightness and lifetime.

+90% Light

High performance bulbs. Up to 90% more light on the road. They contribute to improve driving performance especially during night hours. Only available in double box version.

Range

+130% Light

The brightest bulbs in Magneti Marelli range. Able to provide up to 130% more light on the road! Available in single and double box versions.

Blue Light

Halogen bulbs that produce blue-tinted "Xenon effect" light thanks to the use of this gas.

White 4200K

They produce a very white and stylish beam of light that provides up to 30% more light on the road. Available in single and double box versions.

Standard 24V

Bulbs for Heavy Commercial Vehicles. Available in all the most important halogen and auxiliary formats

Heavy Duty

24V bulbs with reinforced filament and welding. Ideal for industrial vehicles subjected to high stresses because they are more resistant to shock and vibrations.
