PARAMOUNT AUTOMOTIVE

Paramount Automotive's mission has always been to design and manufacture innovative vehicle-enhancing products for off-road enthusiasts. To maintain our position at the peak of our industry, we are investing ourselves in new product development and quality improvements for a wide variety of vehicles and customers. Whether you drive a Truck, Jeep, or SUV, Paramount Automotive is here to enhance your vehicle with products that deliver quality, functionality, and profitability.

To deliver on that highest standard of quality and innovation, Paramount Automotive has enhanced our design and manufacturing operations in metal and plastics to create superior off-road products. Our metalworking and thermoforming machinery is the finest in the industry, surpassing our competition by all standards of quality and innovation, as we continue to advance from strength to strength.

This positions Paramount Automotive as the pinnacle in off-road design and manufacturing both now and in the future.

Built from heavy gauge steel for the highest durability and powder-coated for long life. Every fender flare is engineered to give the maximum clearance allowing the largest tire options. We also incorporated air vents to allow for greater air flow in the engine compartment during extreme conditions. Choose from our armor style front fenders and combine them with our corner guards and rear fender flares makes for ultimate protection off-road.

FEATURES

- Manufactured from 4mm heavy duty steel plate
- Textured black powder-coat finish for durability and corrosion resistance
- Front fenders include a 3/4" LED marker light
- Designed for maximum tire clearance
- Some drilling required for proper installation
- Lifetime structural warranty against manufacturers defects
- 5 year finish warranty
