Evolution LED Grilles **New!**

When the Evolution line was first created by Paramount Restyling, it was charged with a single purpose: to create the future of restyling. It was in search of this goal that Evolution's LED series was born. Using rivets with LED lights inserted into them these grilles aren't just designed to make your ride stand out, they'll make you stand out. When powered off the Evolution LED will look just like an Evolution grille, but when powered on the Evolution LED redefines the entire look of the grille. The Cutout Grille line is designed to fit into your original manufacturer's shell, giving your shell that facelift that it's been wanting. Also, with the Cutout Grille line the lights are sold separately so you even have the option of searching out better LED lights to really define your ride. Finally, the Evolution LED Series is made with Paramount's celebrated stainless steel and finished with its renowned powder coating, so you know that it's built to last. With the Evolution LED series, you'll be part of the future!
